SYNERGY SKY

CONNECT for Government

CONNECT for Government connects SIP video devices to any meeting platform, for **any organization** requiring strict security, on-premises deployment or data control.

The CONNECT Advantage: Top 5 Benefits

Secure Deployment
100% self-hosted architecture keeps the CONNECT infrastructure and control within your security boundary, with optional QoS-enabled connectivity to Microsoft Teams, Zoom and Google Meet for optimized media quality.

Flexible Meeting Access
Join meetings with Click to JOIN or JOIN by ID

Future-Proof Interoperability
No vendor lock-in. Built on standard web interfaces, so new platform features arrive immediately without waiting for custom integration updates.

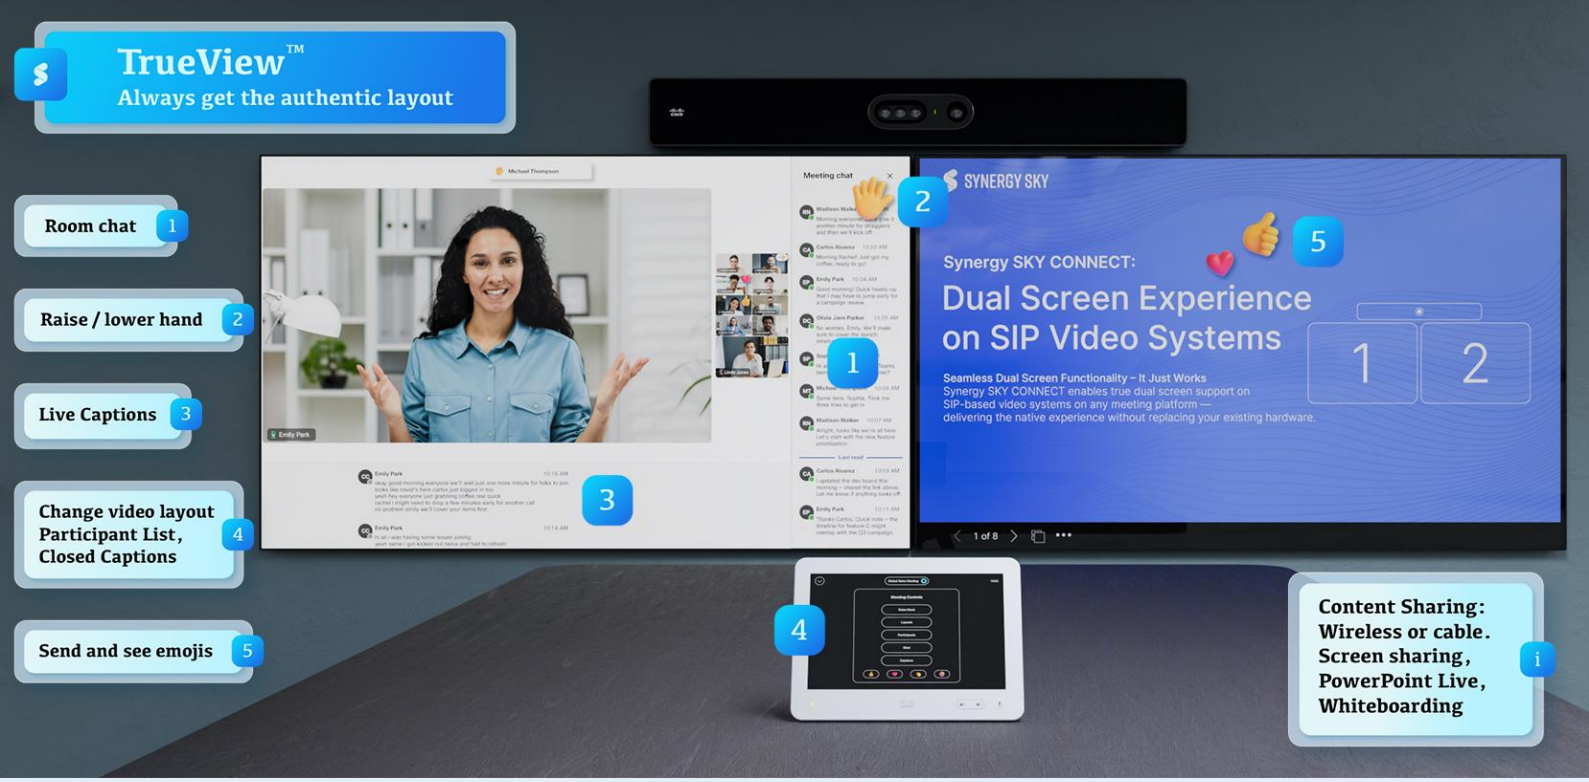
Sustainable Investment
Maximize the value of your existing video infrastructure. CONNECT brings modern interoperability and control to your SIP video systems and works with Cisco CUCM, Expressway and VCS – no need to replace devices. It works regardless of the type and model of SIP device, making it a sustainable solution.

Flexible Deployments
Deploy Synergy SKY CONNECT for Government the way that suits your organization – on-premises, hybrid, or on your cloud provider.

Certifications and Partnerships

Microsoft 365 Certified

- Global reseller partner network
- Available in Microsoft Marketplace and Webex Control Hub
- By adhering to ISO 270001 you know we can be a trusted partner



Key Features
